

Insync Acquires First Byte Corporation, A Leading New Jersey Municipal Software Solutions Provider

- *Finance and Tax Collections Proprietary Software and Services Provider for Municipalities throughout New Jersey* -

Fairview, New Jersey – January 7, 2015 – Insync Municipal Systems, Inc., a wholly-owned subsidiary of Insync Innovations, Inc. announced the acquisition of First Byte Corporation's business and its related proprietary software and operations.

Incorporated in 1982, First Byte Corporation (FBC) has been a well-established provider of information technology systems and services that are specifically designed for use by scores of municipalities throughout New Jersey, including authorities, commissions, and school districts. The Company develops and adapts its software for municipal tax, finance, water and other utility applications. FBC also provides facilities management services to a number of its clients. The Company supports its products with hands-on, 24/7 service.

Michael Licameli, President of Insync stated, "We look forward to building upon the loyal and committed client base First Byte has cultivated over the past 30 plus years with their outstanding commitment, professionalism, and superior customer service revolving around a solid core of software products and related services. We will support the First Byte team and drive ongoing product innovation to ensure that First Byte maintains and grows its well-deserved leadership position in New Jersey. This is an ideal acquisition for Insync as we look to augment our organic growth through the acquisition of complementary businesses with proprietary technology."

First Byte's Founder and CEO, Russell Deihl stated, "It is sincerely gratifying to have taken the First Byte family of employees and clients to this point and comforting to have found an organization which shares our values and commitments." He added, "We are all focused on ensuring the growth and success of the business in the future and expanded benefits for our client base."

First Byte offers a broad suite of software products for New Jersey municipalities, including:

Tax Accounting & Billing Systems (TABS): TABS is custom designed to comply with all of the MOD IV property tax collection, accounting and billing requirements of the State of New Jersey and the New Jersey Municipal Tax Collector.

Municipal Revenue Collections (MRCS): MRCS is designed to automate and simplify the daily collections of municipal revenue including property taxes, utility revenues, late charges and penalties, as well as all types of general municipal revenue.

Byte Utility Billing Systems (BUBS): BUBS has been successfully utilized throughout New Jersey to fully comply with all New Jersey municipal, utility and authority utility billing and accounting requirements.

Tax Sales Recording Interface (TSRI): TSRI is a complementary tax sale recording interface for TABS.

Public Finance Manager: Designed to satisfy the unique needs of government and non-profit organizations, this is a fully integrated and intuitive product that automates the budget maintenance, accounts payable and reporting functions.

BFM Budget Assistant: Spreadsheet-style interface to assist in the preparation of municipal budgets.

About Insync

Insync and its' related organizations has provided complete technology services and has become the “in-house computer department” for many businesses, schools and non-profit organizations since 1999. Insync allows its clients to stay focused on their core businesses and missions while effectively leveraging today’s complex mix of computer hardware, software and cloud services. Services include sales, support and installation of software, hardware and Private Cloud Systems, network design and maintenance, and a full range of consulting and support services. In addition, Insync has created custom database applications that have become the foundation for successful businesses, including personnel search firms, non-profit agencies servicing the developmentally disabled, and medical care providers.
